A misty autumn forest scene. A path covered in fallen red and orange leaves leads into the distance. Tall trees with similar foliage line the path, and the background is hazy. The overall mood is serene and slightly mysterious.

# HOW TO CLIMB A TREE

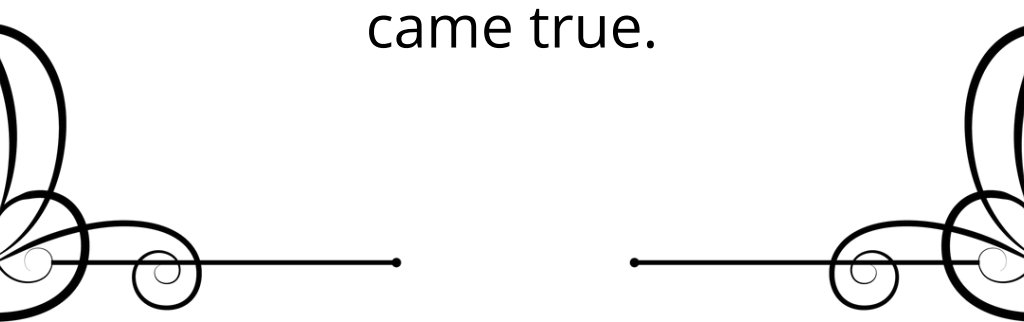

A STORY  
BY  
GRAPHO BITE

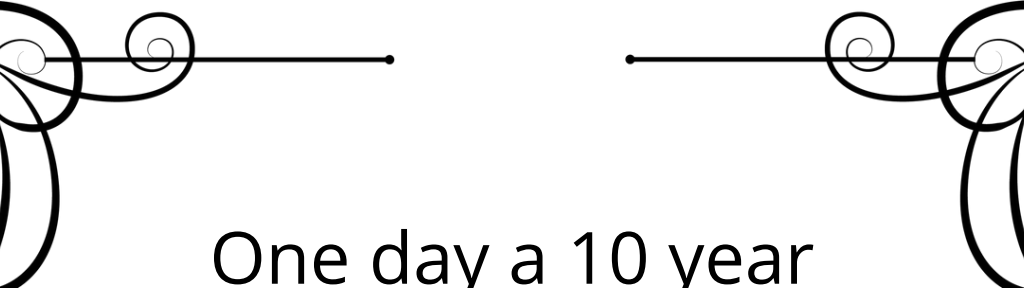

# Introduction

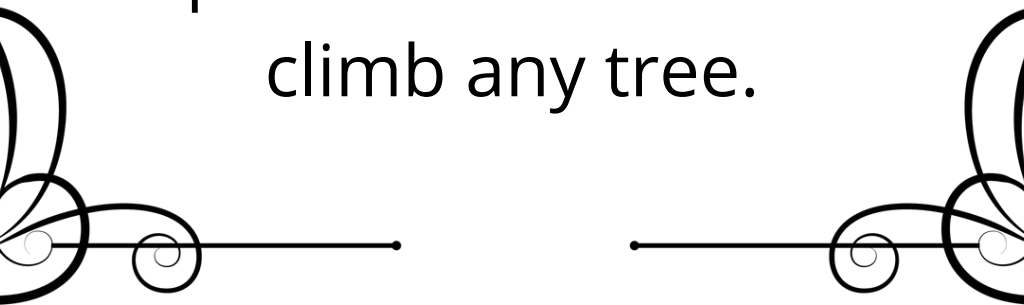

In this story you will find a boy named Sam who is learning to climb a tree and took help from a monkey to learn to climb the tree.

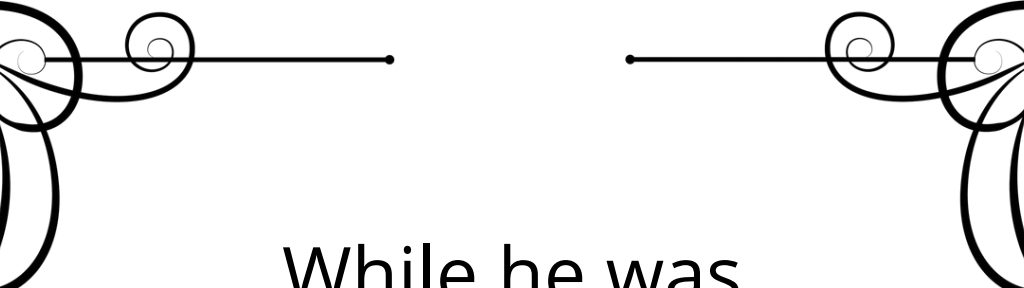

You will also find that how Sam's dream to climb the tallest tree came true.

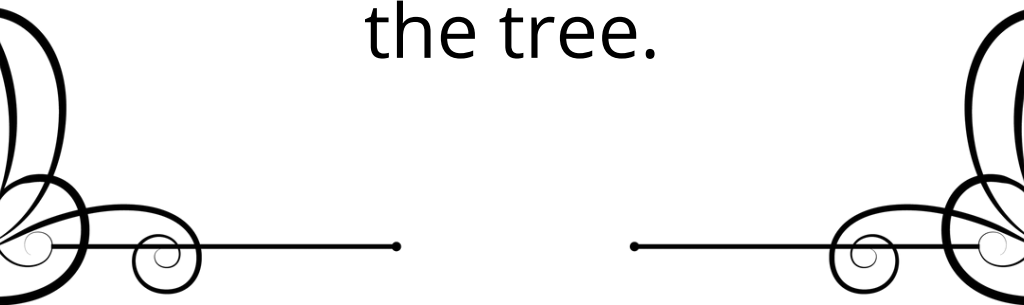

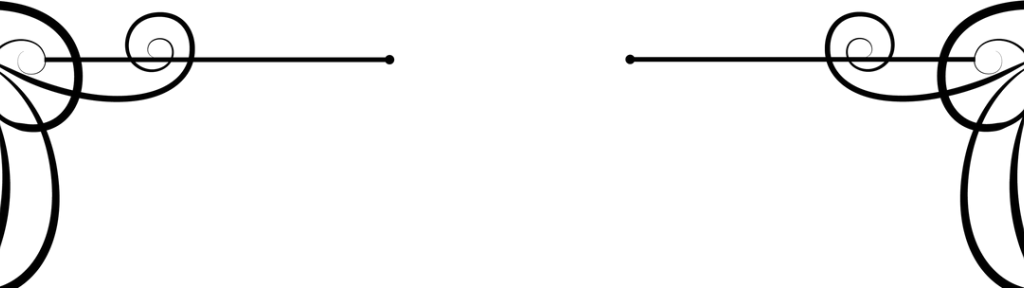

One day a 10 year old boy named Sam was climbing on the tree. Actually he was practicing to climb a tree. He was happy as he actually wanted to get expert in climbing the tree and wanted to prove his parents that he can climb any tree.

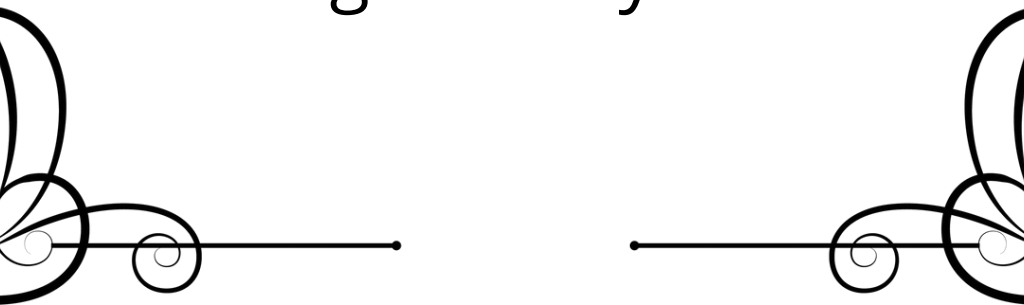

While he was practicing , he saw a monkey climbing a tree. The monkey quickly climbed the tree without any difficulty. The boy thought that why not to ask the monkey to help him in climbing the tree.

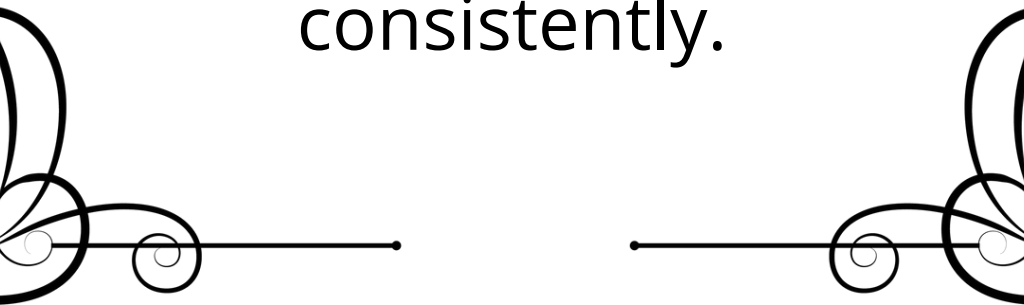

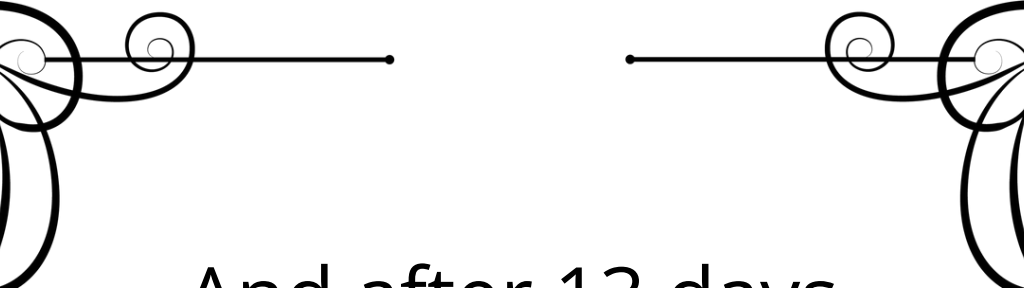

He went to that tree  
and asked the  
monkey that if he can  
teach me how to  
climb a tree? The  
monkey was not first  
ready but when Sam  
offered him a  
banana, the monkey  
got ready.

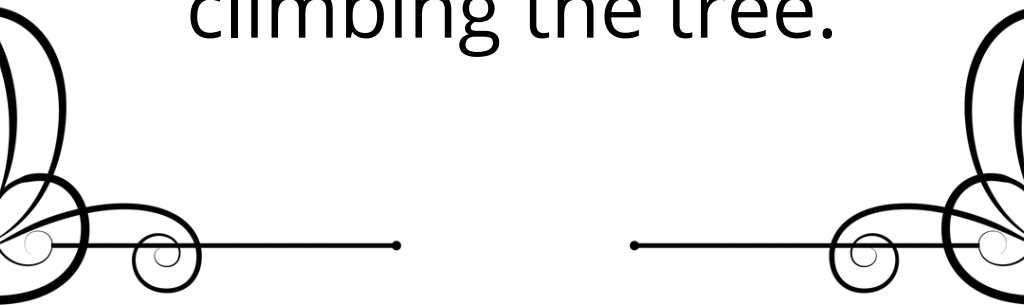

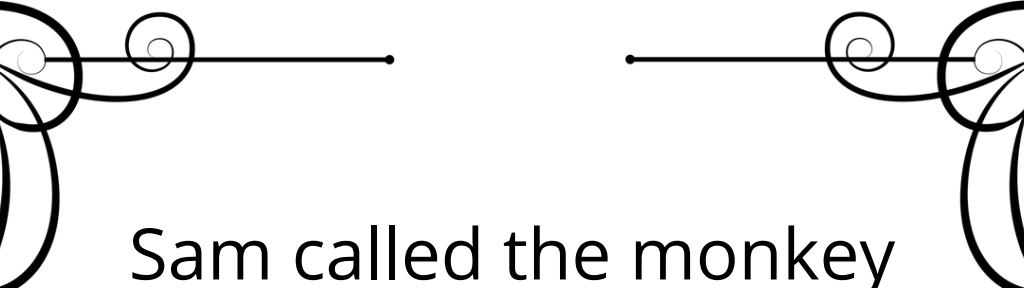

Monkey started to teach Sam that grip and flexibility is important in climbing on a tree. The monkey showed some techniques to climb a tree and asked Sam to practice these techniques consistently.

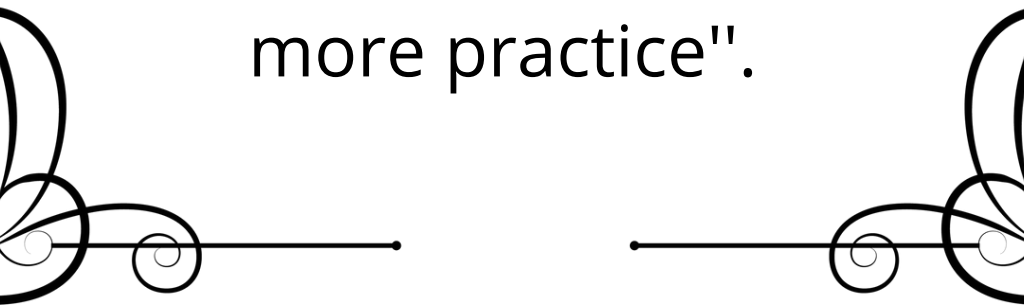

And after 13 days  
he was able to  
climb the tree on  
which he was trying  
to climb in the  
beginning of the  
story. He thought  
that now he has  
become expert in  
climbing the tree.

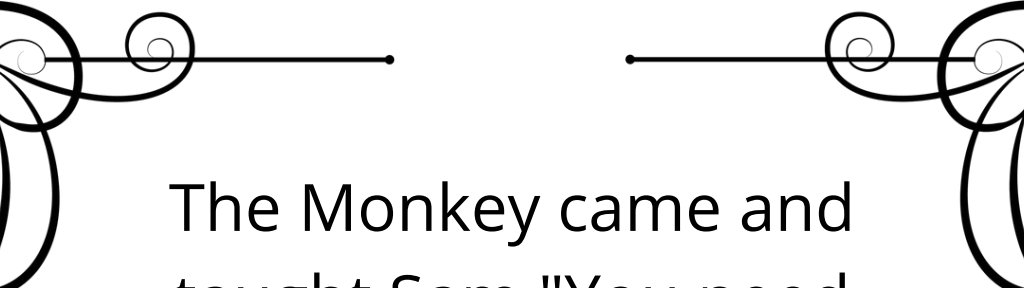

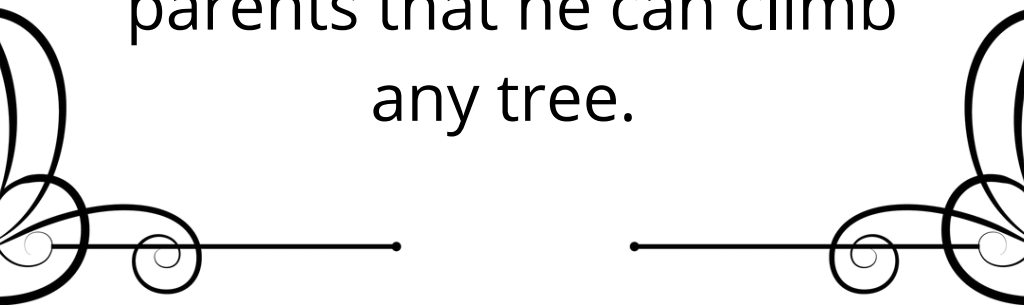

Sam called the monkey and said that he is going to climb the largest tree in the forest to prove his parents that he can climb on any tree. The monkey denied for this and said to Sam that "You are not so perfect to climb the largest tree in the forest, you need more practice".

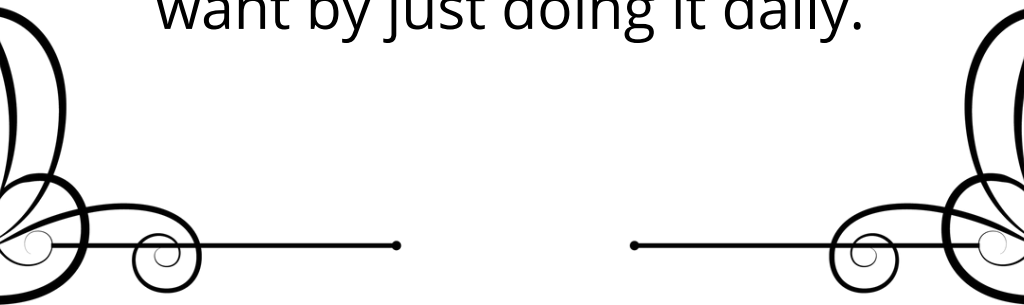

The Monkey came and taught Sam "You need more practice" and Sam realised his mistake and said sorry to the monkey for not obeying him . Then Sam continued to practice climbing tree consistently and after 6 months of hard practice Sam climbed the tallest tree of the forest and proved to his parents that he can climb any tree.

# Moral

1. Anyone who teaches you something good is your teacher.
  2. Don't be Over-confident.
  3. You can become perfect in anything you want by just doing it daily.
